PHAN TUNG HUNG

Full-stack Developer · Node.js · React · React Native

CAREER OBJECTIVE

Monash IT graduate, interning at FPT Software on Flezi Hask, a tool that turns requirement documents into test cases and test scripts. Also freelancing on VTGO, a truck-booking app on the App Store and Google Play, and an ERP system. Looking for a Java or full-stack role, aiming for mid-level in 2–3 years.

WORK EXPERIENCE

Java Developer Intern 05/2026 – Present
FPT Software · Hoa Lac, Hanoi

Flezi Hask – test generation tool

- Generates test cases from requirement documents and turns them into automated test scripts.

Freelance Developer 06/2026 – Present
VTGO · OpenGate · Hanoi

VTGO – truck-booking app connecting businesses with truck drivers (“Grab for trucks”); live on the App Store & Google Play

- Helped migrate the backend and built the in-app wallet: payments, secure withdrawals with one-time codes, deposits, settlements and cancellation fees – passed all 34 acceptance tests.
- Added notifications sent straight to users' phones, and fixed bugs that could charge customers twice or let users see other people's data.
- Published new iPhone app versions and set up automatic testing for every release.

OpenGate – business management software (ERP) for companies

- Built an “app store” inside the software so companies can install and publish add-on features in a few clicks.
- Built driving-school features (students, training cars, teachers, tuition instalments) with per-user access control; fixed 13 QA-reported bugs.

Tech: Node.js, PostgreSQL, React, React Native, Firebase, GitLab CI

Web Developer Intern (Remote) 06/2024 – 06/2025
Jung Talents · Sydney, Australia

- Built e-commerce websites with Node.js, ReactJS and GraphQL, including product catalogue, shopping cart and payment integration.
- Turned client requirements into features, giving clients a new online sales channel and a 20–30% increase in sales.

Tech: Node.js, ReactJS, GraphQL, JavaScript

IT Help Desk Intern 04/2024 – 10/2024
AMES Australia · Melbourne, Australia

- First-line IT support for hardware, software, account and network issues; managed and escalated tickets.

Web Developer (Part-time) 08/2020 – 08/2021
HADTech Joint Stock Company · Hanoi, Vietnam

- Built an internal data-management web app (HTML, CSS, JavaScript) and designed UX/UI mock-ups in Figma.

PROJECTS

Construction Services Web System 08/2022 – 11/2022
Monash Industry Experience Project · allpurposepi.com.au

- Built an internal web system for a real client in a team of 5: front-end, UX/UI and a CakePHP/MySQL back end with templated emails; weekly Agile demos to the client.

Tech: CakePHP, PHP, MySQL, JavaScript
